# OUR SOLUTIONS

# LEADERS IN EMERGENCY MANAGEMENT

Our team is comprised of a complementary group of professionals whose skill sets are based on a mix of academic achievement and proven experience. The skill sets come from a wide variety of fields necessary to offer a complete array of technical expertise and to comprehensively deliver the technical services offered by the ISC team.

We don't just claim to be experts. Our team members hold advanced certifications, degrees, and education to support our claim. We are internationally recognized experts and the first in the world to hold PhDs in Emergency Management.

# OUR PERFORMANCE

Our expert industry knowledge allows us to efficiently deliver exceptional work products. This efficiency translates into competitive pricing and offers us the flexibility to work for clients at all levels of government, urban and rural communities, and both the public and private sectors.

"We have demanded a high level of performance from ISC, and they have consistently delivered above Department expectations. ISC continues to provide us with a high level of performance and as a result is an important part of our emergency preparedness efforts."

City Deputy Commissioner

"ISC has provided exceptional support and is a valued member of our team. They offer outstanding people, work quality, and management. They are excellent in every way!"

Federal Service  
Program Manager

"ISC's level of expertise within the field allows them to integrated seamlessly alongside our staff. They have always performed the work professionally and with devotion to complete the specified project tasks on budget, within the scheduled time, and to our satisfaction."

Acting Director County  
Office Emergency Management

"Over the course of my 25-year career managing the work products of numerous consultants, I can attest that the professionalism, dedication, and collaborative efforts of Integrated Solutions Consulting is unmatched."

Office of Risk and  
Safety Chief

"ISC's strong team of principals, project managers, subject matter experts in addition to their previous emergency management experience were of great value to this project. Each member of ISC's staff was highly professional and showcased devotion and attention to detail in order to complete the specified project tasks within the scheduled time frame, within budget and to our satisfaction."

City Office of Emergency Management  
Program Manager

"ISC has supported us over the past several years, recently completing a COVID-19 Reopening Strategy. This project had a very short timeframe and ISC was able to deliver exemplary services despite these constraints. We strongly recommend them for any agency who is looking for competent and dedicated emergency management consultants."

County Emergency  
Management Director

## CONTRACTING WITH ISC

We offer several different contract vehicles that allow for our clients to easily and expeditiously contract with us.

# INNOVATIONS & RESEARCH

## THE FUTURE OF PROGRAM PLANNING & MANAGEMENT IS HERE!

ISC offers a more valuable and innovative form of crisis planning and recovery management, futureproofing our clients' operations and increasing their adaptability and resiliency. Our one-of-a-kind technology is rooted in forward-thinking, evidence-based research and aims to revolutionize emergency management and disaster recovery.

**Odysseus™** is the industry's most powerful and intuitive comprehensive program management and planning system. A complete platform of independent but integrated web-based tools designed to alleviate the burden on planning and preparedness professionals, OES means you can more effectively manage the comprehensive cycle of preparation, response, recovery, and mitigation.

<b>Grant Management Tool</b>	Ready-to-use or customized grant management system that tracks, administers, and reports funding.
<b>Knowledge Management System</b>	Cutting-edge technology that allows you to develop, share, and maintain preparedness programs, plans, policies, and guidance.
<b>Compliance &amp; Performance Metrics</b>	Program that offers users data-driven assessments that systematically evaluate compliance and performance.
<b>Assessment &amp; Analysis System</b>	Generate customized assessments that can be used to evaluate and track performance and progress of programs and initiatives.
<b>Computer-Based Training System</b>	Ready-to-use or customized computer-based training modules to aid in your organization's knowledge transfer and retention.

# INVESTING IN TOMORROW

We recognize that as public safety and preparedness professionals, we must encourage the development of our profession and promote the growth of the next generation of leaders. For this reason, ISC contributes a portion of our proceeds to the public safety and preparedness community to:

## Future Securities

Supporting local civic and non-profit organizations with the mission of securing our nation.

## Community Resiliency & Social Solidarity

Supporting communities and local civic organizations after a disaster.

**BUILDING A MORE  
RESILIENT FUTURE**

## Research Sponsorship

Advancing the discipline through scientific and evidence-based research that is practically applied.

## Future Leaders

Providing scholarship opportunities and continued education for tomorrow's industry leaders.
